Vignesh T.V.

Entrepreneur | Developer | Architect | Blogger | Consultant/Advisor/
Freelancer | Speaker | Farmer | Generalist
Chennai, Tamil Nadu, India

Summary

I'm a generalist who likes to work on the end-end product lifecycle.
I have been a full stack developer, software architect, consultant,
research and development lead, and product manager throughout
my career thereby wearing multiple hats, and I am now an
entrepreneur running multiple businesses.

I run Algoshred Technologies (https://algoshred.com/), a technology
consulting and services startup; Headshot Marketing (https://
headshotmarketing.com/), a next-gen marketing agency and
Timecampus Technologies (https://www.timecampus.com/), a time
management and productivity startup,

I also advise/consult businesses on various domains including Digital
Transformation, Cloud Native Architecture, GraphQL, Microservices,
Cybersecurity, SEO, SRE, UI/UX, Product Management, Content
Strategy, Leadership, Full Stack Development, Marketing, Time
Management, and Productivity.

You can find my blogs at https://tvvignesh.medium.com

I love traveling, adventures, sports, blogging, and pretty much
exploring anything I can in this amazing world.

This is the motto I try to live by: "What if Today was your last?"

Convint.ai
Co-Founder & Chief Technology Officer
October 2021 - April 2023 (1 year 7 months)

We built a conversational intelligence platform (chatbots) for the recruiting industry to ease the way candidates are interviewed and the way recruiters go about the entire hiring pipeline

https://convint.ai/

Demo at https://www.youtube.com/watch?v=yz2y_t2Dxpc

The Ramco Cements Limited
Project Management and Full Stack Development
March 2021 - August 2022 (1 year 6 months)

Working on building a headless CMS backed website for Ramco Cements based on Strapi, React, Postgres, TailwindCSS among other things

https://ramcocements.in/

Sokowatch
Product Consultant
March 2022 - May 2022 (3 months)

Shipper
Product Consultant
December 2021 - May 2022 (6 months)

Setting up Shipper for B2B/B2C procurement operations using Shopify. Helped them setup the store by working on their Shopify theme and relevant integrations like payment, language translation, shipping, bulk uploads, order tracking, product collections, search, etc. thereby setting up the end-end lifecycle

The Guild Software
Open Sourcerer

January 2021 - February 2022 (1 year 2 months)

Worked as a freelance open sourcerer at The Guild Software contributing across The Guild Stack (https://the-guild.dev/open-source) on the GraphQL ecosystem and also worked with its Clients (Outreach) helping them optimize their GraphQL layer

BRANDED
Product Consultant
February 2021 - August 2021 (7 months)

Worked as a freelance product consultant with Branded on different projects. Some of the projects I worked on include
- Research, Analysis and onboarding with a DAM (Digital Asset Management) solution like Brandfolder for managing the assets
- Research, Analysis and onboarding with a Listing Tool like Sellbrite to manage our listings and product information across e-commerce channels
- Working with Multi channel Inventory, 3PL & Supply chain tools and solutions like Skubana, Cartrover, Shipedge, etc. and coordinating with the different teams on Netsuite and Celigo related integrations
- Getting the team onboard a support and contact center solution like Zendesk Suite, connecting it with ecommerce channels using ChannelReply, etc.
- Research and analysis of Influencer Management tools like CreatorIQ, Mavrck, Upfluence, etc. for helping the team build an influencer marketing strategy for ecommerce channels
- Helping the team manage their processes better with tools like Clickup
- Research and Analysis of scraping tools like Octoparse, Parsehub, etc.
- Working on mockups in relation to building Brand Analytics tools for managing all analytics and visibility internally
- Help the team evaluate tools like Retool for managing the applications internally
- Research and analysis of PIM solutions like Saleslayer to manage product information

Ramco Systems
3 years 11 months

External Consultant
November 2019 - March 2020 (5 months)
Chennai Area, India

Senior System Analyst - NGT (R&D)
May 2019 - October 2019 (6 months)
Chennai, Tamil Nadu, India

System Analyst - NGT (R&D)
May 2018 - May 2019 (1 year 1 month)
Chennai Area, India

Leading an R&D team as part of the Ramco Corporate Technology division where we
work on modernizing various aspects of the product and its infrastructure.
I currently lead all the initiatives relating to Machine Learning, Microservices
and DevOps in addition to the other research we do.
I am also responsible for developing strategies to adopt new technologies within the
organization to solve challenging problems and explore new opportunities to better
the market and bring the overall cost of the organization down.

Also started the practice of holding Meetups @ Ramco (a.k.a Ramco Nuthouse). You
can find the website for the same here: https://thenuthouse.github.io

Programming Analyst - NGT (R&D)
November 2017 - April 2018 (6 months)
Chennai Area, India

Before becoming a System Analyst, I was an Analyst Programmer at Ramco.
My responsibilities remained almost the same, where I had to do R&D to solve
problems which are posed to us by the respective product teams and come up with
strategies to productionize the same.

Programming Analyst - HCM LABS
May 2016 - November 2017 (1 year 7 months)
Chennai Area, India

Before moving to the corporate R&D department, I worked in HCM LABS, an SBU
level R&D department where I was responsible for end to end development of an
employee engagement product called empsense.
Worked on the web app, mobile app, chat bot and was also involved in integrations
with other products including Microsoft Teams.

Tech Ahoy

Founder
2011 - 2014 (3 years)

My startup. Have gone through a big slide in this phase. Worked on pretty much everything from creating the product, testing, marketing, etc.

KRIOS Technologies Private limited
Intern
January 2013 - April 2013 (4 months)

Making the website and mobile app based on data mining for the company.
